5. References

- Silverpoint Corporate Codes of Practice
- Alberta OH&S
- Silverpoint Task List
- Silverpoint THA 4.03

6. Procedure

6.1 Ask the question:

6.1.1. Can I lift this object mechanically ?

6.1.2. Am I capable of lifting this alone, or does it require two people ?

- 6.2 Scope the area – look for obstructions or slippery areas in your path and avoid them, if possible .
- 6.3 Size up the load – check for sharp or protruding objects .
- 6.4 Face the load, bend the knees and keep the back straight .
- 6.5 Take a firm grip, raising the head, and lift smoothly .
- 6.6 Walk directly to the load's destination and place it down as you picked it up.
- 6.7 Avoid twisting .
- 6.8 Ask for help if needed . Usually lots of people on location that are willing to help.

Remember : if you are in doubt about what to do, call your Supervisor
